

# Academic Breakout Session

Roles and Opportunities

# Academic Institutions

- Conduct Surveillance
- Develop methods
- Publish/disseminate information
- Educate future practitioners/researchers

# Academic Institutions

- Unique Resource
  - third party
  - multiple expertise
  - facilities for data storage, manipulation etc
- Workplace Access
- Funding

# Presentations

- Techniques exist for hazard surveillance
- Exposure/response
- Historic Exposures
- Prospective/cross sectional
- Innovative data collection techniques

# Presentations

- Data Computerization
- Database Linkage/integration
- Multidiscipline teams

# Partnerships

- Industry/labor
  - Importance of surveillance
  - Variability of administrative titles
  - Access
- OSH professionals
  - Data needs
  - Data interpretation
  - Education

# Partnerships

- NIOSH
  - Emphasize need for hazard surveillance
  - Data coding
  - Development of surveillance tools
  - Facilitate interactions with other partners

# Future Workshops

- Integration of partners
- Coding issues
- Biomarkers
